

## BIO

---

Jonas was born in Zurich, Switzerland and after an initial education in automation engineering, returned to his childhood passion of film and cinematography. Being entirely self taught and looking for a way into the Swiss film industry he teamed with two partners, including his brother Luzius and Swiss director Jonas Ulrich. They started the still ongoing film production company 'Dynamic Frame' in the early 2010s. He has shot numerous commercials, music videos and narrative films. In 2018 he moved to Los Angeles to study cinematography at the American Film Institute Conservatory from which he graduated in 2021. Jonas continues to work both in Los Angeles and Zurich.
